Hear in noisy situations

"I haven't heard like this in 30 Years"

John Hockney, Australian Hearing client

As a member of a book club and leader of a local historical society, following conversations in noisy environments was a constant frustration for John Hockney, even with the use of hearing aids. However a recent visit to Australian Hearing, where Mr Hockney was recommended an FM system to use with his hearing aids, has completely changed his ability to participate in the activities he loves.

"It makes it so easy to listen to people in a group. The sound is clear and distinct," Mr Hockney said.

Using an FM system has meant Mr Hockney can now fully take part in every conversation, and he couldn't be happier with the results. "I haven't heard like this in 30 years, Australian Hearing has changed my life for the better."

Hearing aids

...just for you

PRODUCTS

Whatever your hearing needs, a digital hearing aid will help you hear the sounds you love.

There are many types and models of hearing aids to choose from. Hearing packages from Australian Hearing include consultations with your clinician and the cost of the hearing aid. Package prices start from just \$500, and depend on the level of technology that you choose.

The 701 series

The 701 series of hearing aids are the most superior in our range. Packed with the latest technology available, they help you hear well in a range of everyday situations.

BUSY, SOCIAL AND ACTIVE

Choose an aid from the 701 series if you:

- Like listening and talking in groups
- Engage in activities that require a high level of communication
- Enjoy going to restaurants, clubs or meetings
- Socialise regularly with friends and family
- Drive and need to be able to focus on sounds from behind.

SUPERIOR TECHNOLOGY

- Can be programmed to a wide number of settings to suit different listening situations
- Helps you focus on the person talking and reduce the surrounding sounds
- Provides ultimate listening comfort in noisy situations
- Detects the direction of a noise and automatically adjusts so you can hear it - even in a car
- Learns your sound preference and automatically adjusts to them
- If you enjoy music, these aids provide richer sound quality.

The 501 series

Small and smart, the 501 hearing aids suit a busy lifestyle.

ENJOY FAMILY AND FRIENDS

Choose an aid from the 501 series if you:

- Enjoy family gatherings but have trouble hearing in the noise
- Enjoy getting together with friends each week.

EXCELLENT TECHNOLOGY

- Provides speech clarity in a variety of social situations where focusing on the person talking can be difficult
- Cancels annoying feedback
- Learns your preferred settings in a range of situations and adjusts automatically
- Connects via Bluetooth to your TV, mobile phone and MP3 player.

Hearing aids

...just for you

PRODUCTS

The 301 series

Simple to use, small and discreet.

ENJOY BETTER HEARING

Choose an aid from the 301 series if you:

- Need to hear well at social gatherings or in small groups
- Need help to hear conversations with friends
- Watch TV
- Want a hearing aid that is small and discreet.

ADVANCED TECHNOLOGY

- Logs and learns your preferred volume setting for each situation
- You can use the remote control to change settings wirelessly
- Connects via Bluetooth to your mobile phone, Bluetooth home phone, TV and MP3 player.

The 101 series

The 100 level hearing aids are inconspicuous and easy to manage.

IF YOU LEAD A QUIET LIFE

Choose an aid from the 101 series if you:

- Enjoy a quieter lifestyle
- Need help to hear the TV
- Need to hear friends better in your home.

ENTRY LEVEL TECHNOLOGY

- Good for hearing people talk in quieter situations
- Listen to family and friends without straining to hear.

For eligible people, the cost of hearing packages can be fully or partially subsidised under the Australian Government Hearing Services Program.

OUR GUARANTEE TO YOU

Our goal is for you to have better hearing. If you're not happy with your hearing aid, return it within 55 days and we will give you your money back. We will only charge you a fee of \$150 to cover the cost of appointments and return of the aid to the supplier.

MAINTENANCE AND BATTERIES

For less than \$40 per year we've got you covered for batteries, repairs and maintenance of your hearing aids. That's great value.

Sign up for our Hearing Services Card when you purchase or receive your next set of hearing aids.

Hearing aid accessories

PRODUCTS

Remote controls make adjusting your hearing aid easy. These controls are available with any hearing aid from the 301 level upwards. Some also connect wirelessly to your phone, TV and other Bluetooth devices.

miniTek

\$575.00

The new lightweight **miniTek** fits easily in the palm of your hand. With its T-coil, the **miniTek** allows you to connect to multiple electronic devices and connects wirelessly to your mobile phone, TV, stereo, MP3 player or laptop. It comes with rechargeable batteries and can be worn around your neck or clipped onto your clothing.

Tek

\$500.00

The **Tek** connects you wirelessly to your mobile phone, MP3 player, TV or computer. With a clear display and large push buttons, the **Tek** delivers superior sound quality.

ePen & ProPocket

\$350.00

Not compatible with all models

Shaped like a pen, the **ePen** allows you to adjust volume, switch programs and turn your hearing aids on and off. The **ProPocket** remote control is small enough to fit into your purse or pocket but still features large buttons for easier handling.

eCharger

\$350.00

The **eCharger** lets you recharge your hearing aids without the hassle of changing batteries.

Not compatible with all models

Hear in noisy situations

PRODUCTS

Even with a hearing aid, hearing in situations where there is lots of background noise, such as a restaurant or the car, can be hard. A wireless FM system works with your hearing aids or by itself to deliver the sound you want to hear directly to your ears.

Phonak Classic EasyLink MyLink Bundle... prices range from

\$990 - \$1,900

FM technology picks up the sounds you want to hear through a transmitter microphone. The person speaking can wear or hold the transmitter microphone, or it can be placed in the middle of a group of friends. It then sends the signal directly to your hearing aids or through a headset if you don't wear hearing aids.

The result? You hear the speaker's words directly in your ears, without distracting background noise, allowing you to enjoy and participate fully in every conversation.

Enjoying social events

One of the most challenging situations hearing aid wearers find themselves in is having a normal conversation in a noisy social setting. With FM technology, these situations can become enjoyable again. Restaurants, for example, have a complex mix of noise - chatter, music, clinking cutlery and glasses. An FM cuts out this distracting noise.

Hearing better in the car

Engine noise, road noise and bad weather can make hearing the voice of a family member or friend difficult or impossible. With an FM their words are much easier to understand and a conversation is possible.

Hearing the TV clearly

Every FM transmitter can be connected to your TV's audio output, ensuring you hear the TV clearly at your preferred volume as the sound arrives directly in your ears.

Telephones

PRODUCTS

Communicate easily with our range of **amplified phones**.

Oricom Care 80

\$79.95

With an extra loud ringer and a red light which flashes for incoming calls, the **Oricom Care 80** ensures you'll never miss the phone again.

This phone is wall mountable, comes with adjustable volume for comfortable listening, and six one-touch picture memory buttons to easily call your loved ones.

Oricom EZY120

\$99.00

Big Button GSM (2G) mobile phone

The **EZY120** mobile phone is ideal for people that just want to make and receive calls/text messages, without paying for other phone features they never use.

Featuring a large, easy to read display, loud ringer, big buttons & hearing aid compatibility, the **EZY120** is the ideal mobile phone for those with hearing loss.

Oricom PRO900-1

\$199.00

Amplified Corded / Cordless Combo

Combining a cordless phone and answering machine, the **PRO900-1** delivers great volume control and is easy to use.

It has an extra loud adjustable ringer with variable tones. In case you don't hear the phone, it also flashes with a bright light to alert you. To make dialling easy, there are large buttons and a backlit display.

A built-in answering machine ensures you never miss a call again.

All Oricom phones are hearing aid and T-coil compatible

Listening devices

PRODUCTS

Enjoy television at your preferred volume

Sennheiser SET 840-TV Stethoset RF

\$446.00

A t-switch compatible model is also available

Sennheiser RS 180 Headphones

\$449.95

Enjoy great sound quality without having to adjust your stereo, TV or other audio equipment.

With wireless headphones the sound even transmits through walls so you never miss a beat of your favourite show - even if you get up to go to the kitchen.

Amplify sound without using hearing aids

Bellman Audio Maxi

\$279.00 - \$337.00

Turn up the volume with your own personal amplifier. Versatile and easy to use, the **Bellman Audio Maxi** provides clear and crisp sound through headphones, earbuds or a stethoclip. It can amplify sound from your stereo, TV or music player.

A low price alternative to hearing aids, the **Bellman Audio Maxi** can connect to your multimedia equipment with the audio cable kit, which comes as an optional extra. An external microphone is also available, which is ideal for the car or speaker of your TV.

Optional accessories:

External microphone and audio cable.

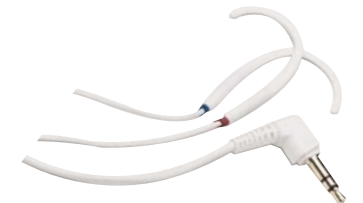

\$29 for the microphone

\$49 for the cables

Listen to music in stereo sound

Music Link - Freedom Stereo

\$89.00

Hear true stereo sound with the **Music Link Freedom Stereo**. Simply select the t-switch on your hearing aid, or behind-the-ear cochlear implant processor, and tune into your favourite tracks. The discreet inductive hooks sit behind your ear, and the 3.5mm plug fits into any product with a headphone jack.

Ask us about the best listening device for you.

Alerting devices

PRODUCTS

iLuv Vibe Plus Alarm Clock and Speaker Shaker

\$129.00

The **iLuv Vibe** is an alarm clock with an iPod dock and bed shaker. This is ideal for deep sleepers who struggle with conventional alarms, or those who simply want a kinder and gentler way to wake up. The **iLuv Vibe** features a dual alarm clock. It plays and charges your iPhone or iPod. You can program your alarm for every day, work days or just weekends.

And the bed shaker lets you wake up without waking everyone else!

Oricom Alarm Clock and Shaker

\$110.00

Wake up to the **Oricom Alarm Clock and Shaker**. It vibrates, flashes and sounds and can even connect to your phone, so you can see when someone is calling.

The time display is large too for easy reading.

Alerting devices

PRODUCTS

Phoenix Wireless Door Chime

\$70.00

Someone at the door? The **Phoenix Wireless Door Chime** sounds and flashes, letting you know when your visitor has arrived. Simply attach the doorbell button to your front door and then carry the receiver with you. It's simple to install and comes with a choice of seven distinct sounds.

Bellman Smoke Alarm Pack

\$400.00

Feel safe all year 'round with this **Bellman Smoke Alarm Pack** that includes a smoke alarm, bed shaker and portable flash strobe light, to provide a visual and vibrating smoke alarm.
